Impacting Society

#### **About Techminds:**

Techminds Learning Services is the learning services division of TechEra, a company focused on providing Technology training modules for IT & Technology Industries. Over the last 6 years Techminds has been engaged in dealing with several Global and Indian Technology and IT Services firms, and has successfully executed about 200 training programs – over 5000 participants on multiple technology areas have been trained and this has helped them accelerate/transform their careers.

#### Our Trainings:

#### Career Acceleration Trainings:

These long term programs are specially designed to bridge the Skills and Competency gap for fresh Engineering graduates to get them ready for entry level roles in Infrastructure Managed Services (IMS/RIM), Software Development, Maintenance, Testing and Performance Engineering.

#### Career Transformation Trainings:

These training programs have been designed to help working executives to transform their careers by equipping them with the latest and high demand technology skill-sets like Cyber Security, Performance Engineering, Data Management, Big Data, Analytics, Cloud & Virtualization, IoT and more. The program also helps IT & Technology companies to train their existing workforce in batches to move them on to newer technologies.

#### Corporate Technology & Platform Trainings:

These programs are aimed at corporate workforce looking for various technology and platform training options.

#### Customized Leadership Training Programs:

Techminds also offers specially designed programs which are a combination of Technology and Behavioral Skills for Managerial & Leadership cadres.

# Case Study - Career Acceleration Training for African Nationals in IMS ( 6 Month Course )

Through this pilot Training program, the South African Government is planning a campaign to train its youth in IT & Communication Skills as it set its eyes on becoming the IT hub of Africa. Their aim is to generate a large scale of IT & ITES employment opportunities for qualified youth in the country.

This is a six month program exceptionally well executed by Techminds. The topics covered include five modules of ICT Building blocks, Datacenter and Server Management, Network Management, Exchange Administration and Security modules.

# Case Study (On demand / Leadership) CIO Training for South African Heads of IT in Govt.

As part of the National E-governance Adaptation Campaign, the Government of South Africa wanted to give an elaborate insight to their departmental CIOs about the E-governance Evolution in India along with the Digital India Vision which is a pilot program. This was a strategic step towards making South Africa leap forth as an IT Hub.

This program is a combination of Technology, Behavioral and Case Study based learning, conceptualized by Techminds in collaboration with NISG and COD. The program is a combination of Technology - ICT Building Blocks, IT Service Management, Data Center Management, Identify and Access Management module, Security Monitoring, ITIL e-Governance along with Behavioral studies.

## Why Techminds?

- Techminds has been engaged by MNC's and Indian Tier-1 IT and Technology companies over the last 6 years to fulfill their technology platforms and on-demand training needs
